

AI DELIVERY & OPERATING TRANSFORMATION · TARGET:

SENIOR CONSULTANT - AI, 3CLOUD

EXECUTIVE PROFILE

Operator-technologist who makes complex work visible, connects technical and business teams, and builds operating mechanisms that turn emerging technology into adopted, measurable outcomes. Experience spans AI-first operating transformation, agentic workflow design, software-enabled robotics, high-cadence logistics, high-reliability engineering, quality systems, and client-facing technical translation. Particularly strong at the seams between architecture intent, delivery execution, governance, human judgment, telemetry, and continuous improvement.

ROLE-ALIGNED CAPABILITIES

Agentic workflow patterns	RAG & retrieval patterns	Human-in-the-loop design
Evaluation & governance rails	Cross-system integration	Delivery operating mechanisms
Quality & root-cause systems	Stakeholder translation	Mentoring & standard work

EXPERIENCE

Vape-Jet · Director of Operations

2025-Present

- Lead AI-first operating transformation across production, purchasing, quality, customer success, support, engineering issue flow, ERP/Odoo, Jira, HubSpot, Slack, telemetry, and AI-assisted workflows.
- Connect factory, field, customer, and machine-fleet signals into prioritized work, earlier risk detection, cleaner handoffs, dashboards, standard work, training, and accountability.
- Operate in a software-enabled robotics and machine-vision environment with approximately 1,000 fielded robots informing support and operating feedback loops.

DudeWorth · Founder / AI and Automation Advisor

2017-Present

- Develop AI-readiness and opportunity frameworks assessing value, feasibility, data readiness, governance, adoption burden, reuse, and time-to-value.
- Design agentic workflow patterns using structured context, retrieval, AI agents, human judgment, escalation, decision records, evaluation, and governance rails.
- Advise on AI-enabled operations, logistics technology, warehouse automation, AMRs, ASRS, cobots, transportation systems, network analysis, and workflow design.

Amazon · Operations Management / Site Leader

2014-2018

- Led launch and execution for Amazon Prime Pittsburgh in a 24/7 customer-backward operating environment supporting approximately five million second-day orders annually.
- Built leadership routines, labor planning, throughput visibility, escalation paths, standard work, and operating mechanisms across safety, quality, throughput, customer experience, and team engagement.
- Contributed to logistics innovation through Prime Air research and Amazon Flex geolocation concepts.

3CLOUD DELIVERY FIT

Immediate transfer: integration discipline across AI workflows, operations, quality, technical programs, stakeholder translation, human adoption, and reusable operating mechanisms.

Known gap: not multi-year Azure-specific consulting tenure. The responsible test is bounded technical casework plus an explicit Azure learning plan - not inflated equivalence.

EXPERIENCE, CONTINUED

Compunetics · Director of Operations and Engineering Management 2000-2013

- Progressed through R&D program management, production management, strategic acquisition, operations management, and director-level leadership.
- Led engineering, manufacturing, quality, customer delivery, and complex technical programs in advanced electronics and high-reliability environments.
- Built quality systems, standard work, root-cause practices, performance measures, and process controls; collaborated with high-consequence customers and partners including DoD, CERN, Intel, and AMD.
- Published industry articles, delivered technical talks, and participated in the HyperTransport Consortium.

Cardinal Building Products · Regional Director 2021-2023

- Built the company's first remote regional operation and modernized distributed customer, CRM, commercial, fulfillment, logistics, digital marketing, SEO, and online-buying workflows.
- Advanced AI-enhanced transportation-management and route-planning concepts.

ZeusVu · Chief Pilot, Autonomous Systems and Aerial Data Operations 2018-2022

- Led regulated drone operations across medical, energy, logistics, real-estate, and restricted-airspace contexts with a 100% safety record and no FAA incidents.
- Developed TensorFlow-based concepts for automated aerial inventory and computer-vision-enabled field intelligence; designed medical drone delivery and chain-of-custody concepts connecting technology, risk, stakeholders, and governed execution.

ADDITIONAL LEADERSHIP

Enviro Social Capital · Chairman of the Board 2014-2017

- Co-founded and led a public-private impact initiative focused on sustainable infrastructure, green finance, and civic transformation.
- Helped shape and evaluate a \$200 million Social Impact Bond feasibility concept for Pittsburgh sewage and green-infrastructure improvement.

IEEE · CMPT and EDS Pittsburgh Chapter Chair 2012-2016

- Led regional technology programming connecting industry, academia, STEM outreach, electronics, manufacturing, and emerging technology.

EDUCATION & CREDENTIALS

University of Pittsburgh
Bachelor of Science
Academic grounding includes materials science, physical chemistry, and biology-related studies.

Credentials
IBM Enterprise Design Thinking Practitioner · Six Sigma Certification · OSHA 10

TECHNICAL TOOLKIT

Agentic AI · LLM workflows · RAG patterns · Human-in-the-loop design
· Python · SQL · JavaScript · TensorFlow · Tableau · ERP/Odoo workflows · Jira · Confluence · HubSpot · Slack · GIS and mapping workflows
